

Turret Swivel Stack - Mechanical Inspection Report

Document No.:	LIB-MEC-0067
Revision:	D
Discipline:	Mechanical
Document Type:	Report
Date:	2026-07-14
Project:	FPSO Liberty Development

Description

This report documents the findings of the periodic mechanical inspection of the turret swivel stack, covering bearing condition, seal integrity, and torque tube alignment.

No rejectable defects were identified. Recommended follow-up actions, if any, are listed in the attached inspection checklist and shall be tracked to closure.
