

Riser Base Support Structure - Piping Isometric

Document No.:	LIB-PIP-0025
Revision:	A
Discipline:	Piping
Document Type:	Drawing
Date:	2026-06-02
Project:	FPSO Liberty Development

Description

This isometric drawing defines the pipe routing, support locations, and material specification for the riser base support structure between the turret interface and the topsides process module M02.

Support spacing has been calculated in accordance with the project piping stress specification. All flange ratings are Class 600 unless otherwise noted on the drawing.
