

Flare Line Support Spool - Piping Isometric

Document No.:	LIB-PIP-0058
Revision:	D
Discipline:	Piping
Document Type:	Drawing
Date:	2026-07-14
Project:	FPSO Liberty Development

Description

This isometric drawing covers the support spool piece connecting the flare knock-out drum outlet to the flare boom riser, including guided support and expansion loop details.

Thermal expansion has been checked against the maximum flaring case temperature. Support type and load ratings are shown on the accompanying support schedule.
